Elihu Embree and his family were Quakers who were committed to the cause of abolishing slavery in the American South. Over a few short years, he raised the public consciousness in East Tennessee and achieved wide recognition with the publication of *The Emancipator*, the first periodical in the United States devoted solely to the abolitionist cause. The seven issues of the monthly publication are reproduced here, together with a brief history of Elihu and the Embree family's migration from France to Washington County, Tennessee.

"Every man a king, so there would be no such thing as a man or woman who did not have the necessities of life, who would not be dependent upon the whims of the financial barons for a living." - Share Our Wealth, Huey Long (1934) Every Man a King and Share Our Wealth-Two Huey Long Speeches by extraordinary Louisiana left-wing populist Huey Long includes: - his 1934 radio address announcing the start of his "Share Our Wealth" Movement, promoting greater equality among Americans. By 1935 this movement had 27,000 chapters with 7.5 million members. - Long's Statement on the Share Our Wealth Society in Congress (1935) with proposals, such as that "every family was to be furnished with a homestead allowance of not less than one-third the average family wealth of the country" and "yearly income cannot exceed more than 300 times the size of the average family income." Long's radical agenda as expressed in Every Man a King and Share Our Wealth still offers food for thought for the social-economic debates of the 21st century.

The framework for teaching document is an evolving instrument, but the core concepts and architecture (domains, components, and elements) have remained the same. Major concepts of the Common Core State Standards are included. For example, deep conceptual understanding, the importance of student intellectual engagement, and the precise use of language have always been at the foundation of the Framework for Teaching, but are more clearly articulated in this edition. The language has been tightened to increase ease of use and accuracy in assessment. Many of the enhancements to the Framework are located in the possible

examples, rather than in the rubric language or critical attributes for each level of performance.

It is designed with elements that make weekly learning fun and interactive, including: Activity time Word find time Review time My story journal Learn all about the world while you discover more about your own. And make sure you pull out your Quest Collector Cards at the beginning of each quest. Your world map on the other side shows where you are in each lesson!

How to Succeed in School Without Spending All Your Time

Studying: A Guide for Kids and Teens Harcourt

The world around us is continually being shaped by science, and by society's relationship to it. In recent years sociologists have been increasingly preoccupied with the latter, and now in this fascinating book, Massimiano Bucchi provides a brief introduction to this topical issue. Bucchi provides clear and unassuming summaries of all the major theoretical positions within the sociology of science, illustrated with many fascinating examples. Theories covered include Thomas Kuhn's theory of scientific change, the sociology of scientific knowledge, actor-network theory, and the social construction of technology. The second half of the book looks at recent public controversies over the role of science in the modern world including: * the Sokal affair, otherwise known as the science wars * debates over public understanding of science, such as global warming and genetically modified food * the implications of the human genome project. This much needed introduction to a rapidly growing area brings theory alive and will be essential reading for all students of the sociology of science.
