enormous amount of feedback from over 700 reviewers, focus group, and symposium participants. The list of changes and improvements on the next few pages is testament to the many hours that reviewers spent thinking about and analyzing our earlier editions, helping us to make Financial Accounting the best book of its kind. Text was reduced in many places to simplify and clarify discussion. Feature stories, real-world examples, and ratio

analyses in each chapter were updated to the most recent year. Financial statement effects were highlighted in the margin of all journal entries. Chapter Framework illustrations at the end of each chapter were modified to include Analysis in most chapters. Five self-study multiple-choice questions were added to the Chapter Framework illustration in each chapter. Five additional questions are available online"--
