*Neurology for Mrcp* Oxford University Press

This is the 2nd edition of my previous book, "Self-Assessment for MRCP part II; 135 Best of Many Questions with Photographic Materials for MRCP(UK) and MRCP(I) Part II Written Exams", which was published in 2009. This book is a rapid self-assessment tool. There are many clues and tricks on how to analyze and answer certain questions. Each chapter does not contain more than 15 questions; it's like a mock paper/exam. I have included many data interpretations and photographic materials. Each question has an objective. Try to target that objective. In writing this book, I tried my best to include the commonest examination themes that have been encountered recently. Good luck!

*MRCP PART 2 BEST OF FIVE PRACTICE QUESTIONS*. CRC Press

This new book contains 350 'best of five' multiple-choice questions for the new MRCP (UK) Part 1 exam. The questions cover a wide range of topics in both clinical medicine and applied basic sciences. The answers are fully descriptive and will help the candidate appreciate why the correct answer is the best of the five given, and include useful background information. The questions are in random order by topic, with the first 50 being less difficult - and thereafter the questions get more challenging. To aid revision, there is an appendix at the end of the book that lists the questions under topic headings. A new book of 350 new-style best of five questions in the style of the MRCP (UK) Part 1 exam Questions presented randomly by topic - as they would be encountered in the real exam Has fully descriptive answers Covers both clinical and basic science topics Includes an appendix where questions are grouped according to topic

*Complete Data Interpretation for the MRCP* CRC Press

This book provides a bank of multiple-choice questions for candidates preparing for Part 2 of the Membership examination of the Royal Colleges of Physicians, the MRCP. The questions are arranged by subject area to enable structured revision and allow candidates to focus on particular areas where they feel less confident. The book has been written with a close focus on recent examinations, with the coverage of topics weighted to reflect the frequency with which they have appeared. The book is structured more as a manual than as a mock exam, and includes explanations for both correct and incorrect answers, focusing comprehensively on the fundamental principles of medical practice. As well as candidates for the MRCP, this book will also be of interest to medical students and students of related health sciences.
